

For funeral homes and cemeteries, Medallion Cremation Urn Vaults offer many advantages:

- ideal for in-ground burials
- ideal for placement in a memorial wall or columbarium
- easy to locate for disinterment
- sealable, providing added protection for the contents
- nestable for safe, easy, onsite storage (Heritage and Memorial styles)
- lightweight for easy handling and shipping

Why choose the Butterworth Urn Company...

Selection

Cremation products are our specialty at the Butterworth Urn Company. We do not sell funeral stationary or caskets. This allows us to focus on what families want most when choosing a cremation urn. Our products are featured in cemeteries and funeral homes across Canada because families choose them. Since 1996 we have been searching the globe to bring you a selection of urns that are both attractive and cost effective.

Value

One of the greatest challenges when sourcing new products is the cost of the product. It is not enough for an urn be attractive and well made. It must also be priced so that families see value in the product. Our urns are designed to support retail pricing that makes sense, both for you and the families you serve..

Service

We ship out urns every day for at-need situations and are acutely aware of your time requirements. Regular ground, expedited, and overnight delivery services are all offered whenever available. Our urns are shipped properly packaged to ensure a timely and safe delivery. And, of course, everything we sell is guaranteed to meet or exceed your expectations. You can count on our service.
